Learner Details

Learner Name and Surname	Mosa Msiza
Contact Number / Cell	0823131009
Email Address	Mosamsiza.29@gmail.com
Name of Programme	Systems Development
Date	30/10/2026

Host Details

Company Name	Belgium Campus ITversity
Physical Address	138 Berg Avenue, Heatherdale, Akasia, Pretoria, 0001
Contact Person Name and Surname	Simba Zingeni
Contact Numbers	0671007329
Email Address	zengeni.s@belgiumcampus.ac.za

Workplace Training

DATE	TASK DESCRIPTION (Experience hand written by Learner)
05/10/2026	Refined nominated tutor cards and learning-resource nominations; corrected session reminders and transcript exemptions for D- modules.
06/10/2026	Added admin tutor creation with student API verification, deregistration audit history, profile onboarding and tutor performance analytics; simplified session reviews.
07/10/2026	Improved administrative access and date filters; developed the super admin compensation dashboard with Excel exports.
08/10/2026	Improved compensation reports and Senior Tutor role support; fixed tutor deactivation/rejoining, optional bio onboarding and availability time selection.
09/10/2026	Added admin announcements with SignalR notifications; separated notification tabs and simplified user and study-area filters.
12/10/2026	Added tutor application pagination, sorting and bulk rejection; refined applicant selection controls.
13/10/2026	Implemented pilot Teams meetings for bookings and confirmation; synchronised cancellations, improved authentication diagnostics and fixed availability redirects.
14/10/2026	No dated project record found. Learner to confirm the work performed on this date.
15/10/2026	Refined Teams button labels, icons and styling; simplified session confirmation with automatic Teams confirmation and expandable manual links.
16/10/2026	Unified one-step Teams confirmation across dashboards and sessions; notified manually added tutors and enabled cross-programme module selection.
19/10/2026	Added Teams recordings and attendance to Tutor Head reviews; refined transcript previews, pilot controls, Graph diagnostics and shared organiser setup.
20/10/2026	Moved Teams account configuration into booking settings; refined Mzala Connect account identity storage.
21/10/2026	Separated booking validation and clarified Teams errors; enabled deregistered tutor reapplication with preserved history and refined prefilled application fields.
22/10/2026	Integrated Teams interview scheduling into tutor applications; refined application review modals and resolved integration conflicts.
23/10/2026	Added a pilot to start a tutoring session automatically when joining Teams; investigated a Docker project-file restore error.
25/10/2026	Refined senior tutor and Head of Tutor application decisions, eligibility handling and rejection behaviour (dated Sunday project commit).
26/10/2026	No dated project record found. Learner to confirm the work performed on this date.
27/10/2026	Improved admin notification links and tutor profile navigation; reviewed shared-organiser meeting attendance behaviour and multiple-report handling.
28/10/2026	Fixed tutor directory back navigation to retain pagination, filters and scroll position.
29/10/2026	Investigated dashboard HTTP 500 errors and possible database migration mismatch; reviewed sessions stuck InProgress and how system emails are sent.
30/10/2026	Prepared the October workplace training log and attendance form using project history for 5-30 October.

Comments by the Supervisor / Manager *(Please comment on the Learner's Performance)*

During October, Mosa contributed to the development and improvement of the CampusLearn platform. His work included tutor administration, application reviews, compensation reporting and real-time announcements. He also worked on Microsoft Teams integration for booking confirmations, interview scheduling, shared meeting organisation, recordings and attendance reviews. He improved navigation and investigated application errors, showing a practical approach to problem-solving and attention to the needs of students, tutors and administrators. His contributions demonstrate continued growth in software development, system integration and troubleshooting.
